Cisco Innovation **Challenge**

Use your imagination to create the **Supply Chain** of the future!

The Challenge
Create robust, scalable solutions designed to make the supply chain ecosystem operate more effectively and efficiently.

The Data
An easily accessible, secure platform will be available for participants to download comprehensive, high-quality sample data provided by Cisco.

The Prize
Prizes available for the most creative, innovative applications submitted.

The Opportunities
First hand exposure to Cisco supply chain executives and experience analyzing data from industry leaders. This challenge is the first of its kind – don't miss this opportunity!

The Details
Are you up for the challenge? Contact ciscoinnovation@external.cisco.com for more details and how you can get started.

Creative Innovation Through Competition
